

SUMMITWEST^o

ENVIRONMENTAL CONSULTING

360° ENVIRONMENTAL SERVICES

Acting as a strategic business partner to clients since 2010, SummitWest is a woman-owned DBE environmental consulting firm focused on producing modern and dynamic solutions that support clients, communities, and ecosystems.

360° CLIENT BENEFITS

- ❑ ISN- & Avetta-approved Safety Program with a dedicated Safety officer, effective safety tracking, 4x4 training and vehicle fleet, and Garmin trackers for all field staff.
- ❑ In-house Scheduler provides customized, rapid responses to client needs
- ❑ Wide geographic distribution of qualified field biologists allows for rapid staffing without added cost
- ❑ Qualified team of desktop reviewers, permitting specialists, and project managers allows support of complex projects
- ❑ Strong leadership and a committed management team provides in-depth staff mentorship, performance tracking, internal quality control, and allows SummitWest to take more responsibility for clients
- ❑ Low turnover rate ensures continuity on long-term projects
- ❑ Financial and staffing capacity enables support of projects ranging from days to years

360° DATA & TECHNOLOGY INTEGRATION

- ❑ SummitWest has a unique focus on logistics, utilizing 55 remote offices instead of central hubs
- ❑ With integrated technological innovation and automation, SummitWest expedites deliverables and reduces human error
- ❑ SummitWest recognizes rigorous and reliable data management as a core metric of success (tracking over 15,000 surveys per year)
- ❑ Rapid scalability, hiring and training through use of cutting-edge technological tools and customized tracking systems.

360° SPECIES SURVEYS

With 18 USFWS 10 (a) (1) (A) Recovery Permits and survey experience with 68 additional sensitive species, SummitWest staff can provide the biological surveys our clients most need.

360° RESOURCE MONITORING

Our qualified team is equipped to provide habitat mitigation and restoration, natural resource mapping, and aquatic resource surveys with 20 staff having completed the Wetland Institute's Basics Wetland Delineation Course.

SUMMITWEST TEAM

SummitWest is changing the environmental consulting workplace by taking a 360° approach to team management and company culture. With 92% employee retention, SummitWest actively invests in their staff and is proud to be home to a team of diverse talent - equipped to create systems, find solutions, and flourish as professionals.
